

Stop & Go

Game Name: Stop & Go
Needed Tools: Drinks...
Learned: Can't Remember
Drunk Level: Getting Started, Buzzed, Drunk, Hammered, Shit Faced

"Stop go" is a very simple and fun game that can get very confusing. Everyone gets in a circle with a drink in their hand. The first player looks at the direction he wants the play and then says "GO". The person they are looking at can either say "STOP" or "GO".

Go keeps the play going in the same direction, stop reverses it back. After the first player, players can look in any direction they want to try and throw people off. If someone misses their turn or says stop/go out of turn, they have to drink. It can get confusing so you have to pay attention. After the person is done drinking they start up the next round. In addition the first person can not start off with "STOP"
