

## Beat the Bartender

Game Name: Beat the Bartender  
Needed Tools: Drinks  
Drunk Level: Getting Started, Buzzed, Drunk, Hammered, Shit Faced

Another game for the insane, very very high buzz factor. As the story goes, nobody has ever won, lost or drawn.

Some tips :

- don't play it in a crowded bar (you may lose 'your' barman).
- Make sure the bar staff are friendly and can take a joke (very important to avoid a draw).
- Don't make any plans for the following morning.

The steps are very simple :

- 1 The drinker approaches the bar and orders a shot drink (whisk(e)y, bourbon, vodka, etc., etc..).
- 2 The drinker pays for the drink with too much money (i.e. hand over a \$5-bill for a \$2 drink).
- 3 As the barman goes away to get change, the drinker shoots the shot.
- 4 When the barman returns with the change, go to step number 1.

The game ends in a number of possible ways:

- drinker falls over (Result: Bar wins).
- barman punches drinker's lights out (Result: Draw).
- drinker gets thrown out (Result: Draw).
- bar closes (Result: Drinker wins).
