

Drain the Pitcher

Game Name: Drain the Pitcher
Needed Tools: Big Pitcher
Drunk Level: Getting Started, Buzzed, Drunk, Hammered, Shit Faced

All players sit in a circle. Each player contributes one beer to the pitcher. One player starts drinking from the pitcher. This person can drink as much or little as s/he chooses. When done, the pitcher passes to the next player who does the same thing. The person who empties the pitcher is the winner. The person who drink immediately before the winner is the loser.

The loser must then put a beer in the pitcher for each of the players; then play starts again. Or a variation is that the loser puts in two beers, the winner zero, and everybody else puts in one.

This is also a great game to be played in bars. Buy a big pitcher of beer. Pass it around. The loser buys the next pitcher.

It is important that the pitcher is big - it makes it harder to judge the amount of beer remaining.
