

## Quarters

Game Name: Quarters  
Needed Tools: Shot or Beer Glasses & Quarters  
Learned: State College, PA (Penn State University)  
Drunk Level: Getting Started, Buzzed, Drunk, Hammered, Shit Faced

Quarters can be played with any number of players. Play is best with 3-5 players. Sit at a table or bar. To decide who will go first, always start with who's birthday is next.

The shooter tries to bounce a quarter off the table and into a glass. If the quarter goes into the glass, the shooter chooses a person at the table to take a drink. The amount or size of the drink is debatable and if played with beer the giver can count backwards from 3 as slow or as fast as they want. The shooter's turn is over when he/she does not make the quarter in the cup. Play then proceeds to the next shooter.

After a shooter makes 3 shots in a row a rule may be applied that can only be voided by another shooter who makes three in a row and voids as their rule. Rules that are fun are thumb master, no names, no cursing, etc... If you break the rule you have to take a drink...

[Official Coinage and Quarters website](#) offering an official Quarters and Coinage Board. Here you will find hundreds of drinking games and cocktail recipes.
