

Six Gun

me Name: Six Gun Needed Tools: Cards Drunk Level: Getting Started, Buzzed, Drunk, Hammered, Shit Faced

Ok this game is best played with whiskey vodka rum just anything hard... but you atleast need 6 shot glasses 3 just the one shot and then 3 that are double or triple shot glasses... I think it is best played with Some Jack Daniels, Jager Mister, Tiquila, Glenfiddish (12-30 year old bottle really ruff shit) Captian Morgan, Wild Turkey Burbon... but you need 6 differnt alcohols... players how ever many you want... You have one Person be the Dealer... and only that one person is the dealer... unless he/she wants to get drunk really quick... You set the 6 shot glasses up like the chamber of a revolver pistol, 3 one shot glasses in a tringle... and 3 double or triple shot glasses in a tringle so you have a complete circle of your different alcohols... Your cards cannot contain the 7 8 9 10 jack queen or king cards only ace-6 You shuffle your cards and lay 6 cards face down on the table... Who evers turn it is has to pick one card and one card only... If it reads Ace... thats one shot of any glass he/she wants if it reads 2 than you take 2 shots, 3 you take 3 shots, 4 you take 4 shots, 5 you take 5 shots and 6 you have the Six gun shot you have to drink all the shots on the table... Thats my game that i came up with at a lil party a few months ago... and so far its the most played game yet

It will fuck you up quick so you can get to bed quicker maybe even get you layed... but please drink responsibly and know your limit
