

Short Bus

Level of Drunkness: Hammered

Supplies: beer, players, and a deck of cards

First start out by dealing 3 rows of cards onto the table. The first row contains 5 cards, the second has 4 and the third has 5. Then deal each player 5 cards

Start off by flipping over the cards in the rows one by one. Players hand out drink by matching the cards in their hand to the cards in the rows. Whatever the card value is that's how many drinks you hand out. Ten is ten, Jack is eleven and so on. After all cards in the rows are flipped over players then total the amounts of the cards remaining in their hand. Whoever has the highest amount then rides the bus.

Riding the bus: The player(players) rides the bus by drinking the card that is flipped out of the deck. The person who is counting counts by laying down the amount of cards that the card flipped equals. Do this throughout entire deck. Person riding bus should finish atleast one beer.
