

Louisville Chugger

Drunk level- Shit Faced

Ok to play this game all your going to need is a wiffle ball bat along with alot of beer. you cut a gap into the top of the bat but just enough to drink out of then you hold the bottom hole of the bat and and pour in a beer, then you tip the bat up and start chugging and have your buddies count how long it takes you to chug then you do that many spins around the bat as you can then one of your buddies throws the empty beer up in the air and you try to hit it..... do this enough and you will be as drunk as you need
