General Rule: If you are owed money by an individual that person drinks the prescribed amount. If you owe money to someone you are to consume the prescribed amount.

Additional Rules:

When you are slated to receive money from the bank like passing go you can give that amount in drinks to anyone.

If you need to pay taxes or utilities etc. to the bank you must pour the prescribed amount into a cup in the middle which is consumed in full by the lucky person who lands on free parking.

When you land in jail you are not released until you have finished your drink.
