

Dice Dual - Snake Eyes

Game Name: Dice Dual - Snake Eyes
Needed Tools: Dice
Learned: Unknown
Drunk Level: Getting Started, Buzzed, Drunk, Hammered, Shit Faced

You start with a pair of dice and two FULL cups of beer in the center of the table. It is recommended that you have at least 3-4 people per team or a total of 6-8 for an entertaining time. We will start each team sitting at a table facing each other. You will be going head to head with your counterpart on the opposing team.

To begin playing the starting players for each team will grab a die. Each of these two players will roll simultaneously after counting "1, 2, 3 Dual" and throwing their die on the table. The lower number of the two rolls must drink the prescribed amount. The higher of the two rolls must give that amount of drinks to a player on the opposing team. If you roll doubles (except snake eyes) both rollers need to consume the amount on their die.

Why is it called "Snake Eyes" well... if both players roll ones THEY each get to finish a glass in the middle.
