

## Crazy 8's

Game Name: Crazy 8's  
Needed Tools: Cards  
Learned: Michigan  
Drunk Level: Getting Started, Buzzed, Drunk, Hammered, Shit Faced

Take the four 8's from a deck of cards and lay them out on a table, top to bottom. Deal the rest of the deck to the players sitting around the table.

Players must take turns laying down their cards, building from the eights in either direction (matching suites).

Any card may be played, however;

if a player cannot lay down a card that directly follows one already on the table, a 9 on a 8 for example, they must drink for the total number of cards from those in the suit on the table and those missing in between.

if a player lays down a card that does not skip any cards, the drinks (of their card's face number) are given out to the player(s) of their choice.
