

Electronic Drinking Game (Retail)

Around and around it goes, where it stops nobody knows! A more exciting twist on the "spin the bottle" type drinking game, you just put two fingers on the silver pads, and the lights will flash on and off as the music pulses "thump thump...thump thump". Then, watch as the red dot spins quickly around, and then slower and slower around the wheel of destiny until it stops on your fate. Will it be one shot, two shots, reverse, pass, or something else? Whatever the outcome, fun is guaranteed! A great party game for 2 or more adults, includes batteries and 4 shot glasses.
